Independent Auditor's Report

***To the management of Transparency International - Moldova
Chisinau, Republic of Moldova***

Opinion

We have audited the accompanying financial statements of the projects financed according to the agreements between donating agencies Transparency International e.V. (Secretariat), National Endowment for Democracy, Minister of Foreign Affairs of Kingdom of the Netherlands, Policy Association for an Open Society and Transparency International - Moldova (TI-M) which comprise the financial reports for the period 01.01.2018-31.12.2018 and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements presents fairly, in all material respects, the expenses of EUR 109 365 incurred by the projects for the period 01.01.2018 - 31.12.2018, in accordance with the approved project budgets and for approved purposes of the projects; in compliance with relevant Transparency International - Moldova (TI-M) regulations and rules, policies and procedures. The projects execution is in conformity with the project objectives and adheres to the contract conditions. The projects is economically conducted and the financial resources are used at destination.

Basis for opinion

We have conducted our audit in compliance with the International Auditing Standards applicable to special-purpose audit engagements. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Transparency International - Moldova (TI-M) and donator organisations in accordance with the ethical requirements that are relevant to our audit of the financial statements in Republic of Moldova, and we have fulfilled our ethical responsibilities in accordance with these requirements. We believe that the audit evidence we obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter – Basis of accounting and restriction on distribution and use

Our report is intended solely for the management of the projects, Transparency International - Moldova (TI-M) and financing organisations and should not be distributed to or used by parties other than the projects, TI-M and donators. Our opinion is not modified in respect of this matter.

Other aspects

According to the audit contract and terms of reference we have also issued a Management Letter.

Responsibilities of Management and those charged with governance for the financial statements.

Management of TI-M is responsible for the preparation and fair presentation of the financial statement of the projects in accordance with the requirements of the donators for the project implementation, and for such internal control as management determines is necessary to enable the preparation of a financial statement that is free from material misstatement, whether due to fraud or error.

Those charges with governance are responsible for overseeing the financial reporting process of TI-M.

Auditor's Responsibilities for the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statement.

As a part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risk of material misstatement of the financial statement, whether due to fraud or error, design and perform audit procedures responsive to those risk, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organisation's internal control.
- Evaluate the appropriateness of accounting policies used and reasonableness of accounting estimates and related disclosures made by management.

We communicate with those charges with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Director of Audit Firm, Auditor
